## Environmental policy

We recognise that most activities of any organisation or individual have some impact on the environment. Our aim is to reduce the impact of our own organisation through a programme of continuous improvement.

### **In this respect our policy is to:**

- Promote and support environmental gains in a cost efficient manner;
- Comply with current and future legislation;
- Minimise waste, recycling as much as possible and responsibly disposing of the remainder;
- Support our Trade Associations' efforts to improve the road haulage industry's impact on the environment;
- By example, influence and encourage our suppliers to reduce their impact on the environment;
- Seek to enhance awareness of relevant issues among customers, suppliers and colleagues.

John G Murphy  
Company Secretary
